

# Davis County School District

## SUMMARY

### • LOCATION

Bloomfield, Iowa

### • FACILITY SCOPE

1,200 seat outdoor sports field/stadium

### • OBJECTIVES

The school district needed an upgraded sound system for school events, including football games and graduation ceremonies.

### • BIAMP SOLUTIONS

Community™ loudspeakers

### • OUTCOME

With the implementation of the Community LVH loudspeaker, the stadium complex now has a powerful sound system that transcends the traditional challenges of quality outdoor acoustics.

### • EQUIPMENT

- Community LVH-906WR
- Community ALC-404D
- Community ALC-1604D

Located in southeast Iowa, Bloomfield is home to the Davis County Mustangs, the town's high school football team. For years, the school district searched for a sound system capable of high-fidelity performance and excellent coverage control for the team's playing field, Mustang Stadium. This solution would be used not just for home games, but also for events like marching band competitions and graduation ceremonies.

**We're very pleased with the sound system...it's not even comparable to the prior system. It feels as though you're at a professional stadium.**

**DAN MAEDER**

Superintendent  
Davis County School District

## SOLUTION

Mark Doubet of DB Acoustics was tasked with installing the sound system. He determined that Biamp's Community LVH-906WR loudspeaker would provide the power and clarity needed for Mustang Stadium. Designed for extraordinary support in larger venues, the LVH-906 is a large format, horn-loaded triaxial array that maintains pattern control below 400Hz. Its weather-resistant construction is perfectly suited for the demands of an outdoor venue like the stadium, ensuring a level of durability capable of withstanding the cold winters and summer rains of Iowa.

The LVH-906 was installed on top of the stadium's scoreboard and was covered with a custom scrim featuring the school's logo. "We were very happy with the results and will continue to work with this solution on other stadium projects," Doubet said.

## CONCLUSION

The school district is extremely pleased with the performance of the sound system and has received positive feedback from the local community, noting how football games have become more immersive and enjoyable since the install. "We're very pleased with the sound system...it's not even comparable to the prior system. It feels as though you're at a professional stadium," said Davis County School District Superintendent Dan Maeder.

## ABOUT BIAMP

Biamp® is a leading provider of innovative, networked media systems that power the world's most sophisticated audiovisual installations.

Recognized worldwide for delivering high-quality products and backing each one with a commitment to exceptional customer service, Biamp's mission is connecting people through extraordinary audiovisual experiences.

Founded in 1976, Biamp is headquartered in Beaverton, Oregon, with offices and manufacturing facilities located around the world.
