

Shopping Center

Desono™ EX-S8 surface mount loudspeakers provide exceptional acoustic performance in elegant, outdoor ready aesthetics making it the optimum choice for shopping centers.

The 8" coaxial two-way surface mount speaker distributed throughout the exterior of the plaza provides superior background music to patrons. The discreet and architectural aesthetics allow these speakers to go unnoticed in the space. The included ClickMount U-bracket allows for extensive mounting flexibility and a 35% time decrease on installs.
