

# SYSTEM DESIGN GUIDE

## SHOPPING CENTER

### DESONO EX-S8

biamp.

Desono™ EX-S8 provides exceptional acoustic performance in elegant, outdoor ready aesthetics making it the optimum choice for this shopping center. The 8” coaxial two-way surface mount speaker distributed throughout the exterior of the plaza provides superior background music to patrons. The discreet and architectural aesthetics allow these speakers to go unnoticed in the space. The included ClickMount u-bracket allows for extensive mounting flexibility and a 35% time decrease on installs.

#### FEATURES/BENEFITS

- Excellent fill or distributed loudspeaker
- Uniform coverage from coaxially mounted high frequency/low frequency drivers
- 6- position switch selects 70V/100V taps or low impedance bypass
- IP54 rated per IEC 60529 - solar radiation, salt mist and chlorine; place in any environment
- Utilizes innovative ClickMount pan-tilt and U-brackets for mounting
- ETL listed to comply with UL 1480A and CSA 62368-1
- EN54-24 certified
