FEATURES/BENEFITS

- A Parlé microphone's four 90' zones can simultaneously identify and steer towards talkers, allowing participants to move freely around a space.
- Biamp's Room Bundles include all the audio equipment and cabling needed to deliver extraordinary meetings every single time. Supporting this are tools and software to minimize deployment time and enhance consistency of tuning.
- This equipment combination from Cisco and Biamp is fully tested by Biamp, guaranteeing extraordinary meeting experiences every time.
- Biamp's digital signal processors are trusted around the world to provide the best possible audio processing platform. The TesiraFORTÉ X 400 packs all the power needed to handle any acoustic challenge.
