FEATURES/BENEFITS

- A Parlé microphone's four 90° zones can simultaneously identify and steer towards talkers, allowing participants to move freely around a space.
- Biamp's Meeting Room Bundles include all the audio equipment and cabling needed to deliver extraordinary meetings every single time. Supporting this are tools and software to minimize deployment time and enhance consistency of tuning.
- This equipment combination from HP and Biamp is fully tested and approved by both parties, guaranteeing extraordinary meeting experiences no matter your choice of UC platform.
- Biamp's digital signal processors are trusted around the world to provide the best possible audio processing platform. The TesiraFORTÉ X 400 packs all the power needed to handle any acoustic challenge.
