

Tariff Surcharge FAQs

The following list will be expanded as more questions are received.

Question: What happens when a bundle component includes a higher surcharge than listed for bundles? For example, in the tariff surcharge table, UC Computes are 10% and bundles are 5%.

Answer: Bundles may include components with varying tariff surcharges. In such cases the bundle will remain treated as a single orderable item and include the lower, 5% surcharge.

Question: What are the tariff surcharges for spare parts and service parts?

Answer: There are no tariff surcharges for spare parts or service parts.
